

## PRODUCT INFORMATION

### SPECIALTY

# YELLOW ELIMINATOR

## For Swimming Pools

### Eliminates Yellow or Mustard Colored Debris in Pools

Yellow Eliminator is specially formulated to eliminate cloudy water due to accumulations of yellow or mustard-colored debris from pool surfaces. It also helps remove green, brown and pink debris and is designed to work without strenuous scrubbing.

#### BENEFITS

- ✓ **Stain remover** – Helps remove yellow stains from pool surfaces
- ✓ **Works as a clarifier** – Helps clarify and clear cloudy pool water by removing the yellow debris and restores the sparkle to the pool
- ✓ **No chlorine demand** – Can be used in pools treated with liquid or dry chlorine products
- ✓ **Compatible with sanitizers** – Is compatible with most chlorine based sanitizers used to treat pools

#### DIRECTIONS FOR USE

##### To remove visible yellow or mustard algae:

- Brush walls and floor areas affected by yellow algae accumulation.
- Apply 4 oz. of this product per 10,000 gallons of water as close to the affected areas as possible. For severe accumulations, double the dosage.
- Wait 5 minutes and shock the pool by adding 1 pound of ProShock, dry, granular chlorine per 10,000 gallons of pool water. Follow the label directions for use and method of application.
- For superior water clarity, super shock pool water with PROtech No-Chlor Oxidizer, non-chlorine oxygen shock treatment using 1 pound per 10,000 gallons of pool water.

#### WEEKLY MAINTENANCE

##### To prevent accumulation of yellow or mustard algae:

- Add 4 ounces of Yellow Eliminator per 10,000 gallons weekly when pool water temperature is above 80° F.
- Recommended dosage is 2 ounces per 10,000 gallons, when pool water temperature is under 80° F.

**NOTE:** THIS PRODUCT IS NOT A SANITIZER OR ALGAECIDE AND IS NOT INTENDED AS A REPLACEMENT FOR ROUTINE SANITIZATION USING APPROVED SANITIZERS SUCH AS CHLORINE OR BROMINE.

#### AVAILABILITY

**Yellow Eliminator** is available in 2 lb. bottles and 25 lb. pails.
